About Teradata

Teradata is the connected multi-cloud data platform for enterprise analytics company, solving the world’s most complex data challenges from start to scale. Only Teradata’s enterprise-grade scalability lets businesses handle the massive data workloads of the future, today. Our technology centralizes 100% of the data on a connected ecosystem and enables more machine learning and AI models to drive deeper insight. Teradata’s experts and partners around the world unlock unlimited value by turning data into an organization’s greatest asset. Teradata is based in San Diego, California, with 7,000+ employees around the world.

Executive Leadership

- Nicolas Chapman, Chief Strategy Officer
- Todd Cione, Chief Revenue Officer
- Kathy Cullen-Cote, Chief Human Resources Officer
- Mike Hutchinson, Chief Customer Officer
- Molly Treese, Chief Legal Officer
- Jacqueline Woods, Chief Marketing Officer

Products and Services

Teradata Vantage™ is the connected multi-cloud data platform that unifies data warehouses, data lakes, and analytics into a single connected ecosystem. Vantage enables an enterprise data analytics ecosystem, delivering actionable answers and predictive intelligence to drive the future of our customers’ business.

- Unlock answers anywhere: Give any user in any department the ability to ask any question against any data in the business.
- Scale in every dimension: Only Teradata’s enterprise-grade, multidimensional scalability lets you scale all dimensions simultaneously to handle the massive data workloads of the future, today.
- Empower everyone with data: Give your people secure, role-based, no-coding software that draws on 100% of your data to support key business goals.
- Advance your analytics: Scale out and scale up with machine learning and AI. Enable better models, more models, and better results.

As a multi-cloud data platform for enterprise analytics, Teradata Vantage delivers a full range of next-generation capabilities, including: separation of compute and storage; elastic scaling; integration with first-party cloud services; ingestion of modern data sources; integrated data management and scalable analytics; and dynamic resource allocation and workload management.

Vantage offers risk-free decisioning by building in choice, agility, and flexibility for the customer. Deployment options include public clouds, such as AWS, Microsoft Azure, and Google Cloud, on-premises, on optimized or commodity infrastructure, or as-a-service.

With Teradata's as-a-service offerings for Vantage, customers can consume its market-leading analytic capabilities any way they prefer, in the environment of their choice. This flexibility is highly supportive of a multi-cloud or hybrid environment and ensures that Teradata customers are not held back from, or forced into, decisions about when and how to leverage the cloud.

Recently, Teradata announced:

- Teradata successfully completed one of the largest-scale cloud analytic tests ever undertaken in the industry. Executed on Amazon Web Services, its success demonstrates that enterprise customers can run their complex analytic workloads on a single system in the cloud at unprecedented scale.
- Teradata released a new set of analytic integration components for Dataiku, the platform for Everyday AI. The new Teradata Plugins for Dataiku enable analytics and data science teams that use Dataiku to implement a wide range of powerful analytic functions within Vantage. The upgrades drive greater agility for analytics and machine learning initiatives, speeding time-to-value for joint Teradata-Dataiku customers. The enhanced integration adds to the existing in-database options available when using Dataiku's solution to design, deploy and manage AI and applications with Teradata.
- Teradata announced expanded strategic relationships to integrate Vantage with Amazon Web Services and Microsoft Azure.

From enabling data-centric transformation to designing a modern data analytic architecture and delivering value at scale, Teradata Consulting and our partners can help businesses leverage their data to drive business outcomes and achieve real value.

- **Business Services:** Advanced analytic and modeling services that capitalize on your data assets and deliver insights that drive strategic and actionable business decisions.
- **Ecosystem Services:** Technical services that integrate Vantage with your data fabric and establish a modern foundation that fortifies analytic performance and velocity.
- **Service Catalysts:** Accelerators that streamline and automate data management and moving models into production, while unlocking data transparency, usage, and cross platform lineage.

All Teradata products and services are described in detail at [Teradata.com](https://www.teradata.com).

Industries Served

On any given business day in almost every industry throughout the world, more than three million users benefit from a Teradata analytics environment in the areas of: retail, financial services and insurance, government and public services, healthcare, life sciences, eCommerce, digital media, entertainment, manufacturing, oil and gas, hospitality, telecommunications, travel, transportation, and utilities.
